

BUILDING PRODUCTS OF CANADA CORP.

SINCE 1905

Our **R5^{XP}** panel

is turning **GREY**
to be **GREENER!**

Our R-5 XP Insul-Sheathing panel, formerly light blue, is now **GREY**. This tells you that it has been produced using an eco-friendly formulation in order to comply to the North American Greenhouse Gas and Hydrofluorocarbon (HFC) reduction objectives.

Expect the Same **SUPERIOR PERFORMANCE**

R-5 XP Insul-Sheathing panels are now available with DuPont's **new reduced global warming potential Styrofoam™ Brand XPS formulation.**

Manufactured here in Canada, the R-5 XP Insul-Sheathing panels are made with recycled content and can contribute to obtain ecological building certifications. **R-5 XP panels are an excellent way to reduce a building's carbon footprint.**
