As a leader in the building materials industry, Building Products of Canada (BP) has helped build and renovate homes across Canada for over 100 years. Like the pioneers who built our great country, BP’s craftsmen and craftswomen honour the national tradition of neighbours helping neighbours each and every day.
OUR COMMITMENT: TOTAL QUALITY
Building Products of Canada Corp. is committed to providing quality, value added products and services to its clients.

OUR FUNDAMENTAL VALUE: SOCIAL RESPONSIBILITY

OUR FOCUS: NURTURING LONG TERM RELATIONSHIPS
THE ARCHITECT COLLECTION
LAMINATE SHINGLES

High-Performance Shingles with an Upscale Look

With its shake-like styling and extraordinary protection, the multi-layer laminate is a stunning architectural shingle. A smart choice for value and return on investment, plus a wide selection of beautiful colours to enhance your home’s curb appeal.

Our architectural fiberglass laminates include Vangard 42 IR, Manoir and Mystique 42 with hurricane-resistant Weather-Tite™ technology and limited lifetime warranties.

TO ENSURE THE HIGHEST PERFORMANCE IN THE ROUGHEST WEATHER, BP’S

SUPERIOR PROTECTION & BETTER RESISTANCE TO

1 WIND BLOW OFF  2 WIND-DRIVEN RAIN  3 WATER INFILTRATION  4 SURFACE UPLIFT

PATTERNED SEALANT BAND

Weather-Tite™ SOLID SEALANT BAND

TRACKNAIL 1½” Nailing Zone

All of BP’s laminate shingles feature Weather-Tite™ technology.
**THE CLASSIC COLLECTION**

**3-TAB SHINGLES**

_A Rich Selection of Colours_

For a more traditional look, opt for square-cut, 3-tab shingles. A rich palette of available colours means that there’s always a classic BP shingle just right for your budget that will improve your home’s curb appeal for years to come. Protect your investment with 25 to 30-year warranties. To provide even more protection, Yukon SB integrates hurricane-resistant Weather-Tite™ technology.

---

**LAMINATE & 3-TAB SHINGLES ALL FEATURE WEATHER-TITE™ TECHNOLOGY.**

---

**GET DOUBLE PROTECTION FOR YOUR ROOF**

---

**Weather-Tite™ TECHNOLOGY WITH 2 SEALANT BANDS**

In the roughest conditions, Weather-Tite™ technology ensures optimal performance. BP’s Manoir, Vangard 42 IR, and Mystique 42 architectural shingles all feature this ground-breaking, patented, hurricane-resistant technology. Providing superior protection with the added-value of an enhanced wind warranty, Weather-Tite™ technology guarantees peace of mind with the ultimate in wind and water protection.

**SUPERIOR WIND WARRANTIES**

This groundbreaking technology provides such superior protection, we are able to offer even better wind warranties.

*Product shown: Yukon SB in Autumn Brown*
Due to limitations of the printing process, actual shingle colours and granule blends could be different from the photos.
It is recommended that you view a full-size shingle before making a final colour selection. We reserve the right to change colours at any time.

Vanguard 42 IR is manufactured with a proprietary new generation of polymer (SBS) modified asphalt that yields outstanding shingle performance.

The SBS compound increases significantly the granules retention power. This has a direct impact on the life expectancy of the shingles as the granules protect the asphalt from ultra-violet degradation. The polymer modified asphalt has much more resilience to resist freeze-thaw cycles.

The “rubberized” property of the asphalt can be submitted to more stress (contraction / elongation).

Vanguard 42 IR meets UL 2218 Impact Resistance Class 4.

Vanguard 42 IR shingles are backed by BP’s Limited Lifetime Warranty.
MANOIR
LIMITED LIFETIME WARRANTY

ELEGANT SLATE DESIGN
WITH DEEP SHADOW BANDS

“Superior performance, distinctive elegance”

Manoir offers syncopated sizing and a sculpted slate allure. The exposed portion of this full-sized fiberglass laminate shingle offers more coverage than standard shingles.

Choose from seven warm, rustic colours to complement your home’s distinctive character.

Use Yukon SB for Hip & Ridge

TWILIGHT GREY
SUNSET CEDAR

Due to limitations of the printing process, actual shingle colours and granule blends could be different from the photos.
It is recommended that you view a full-size sample before making a final colour selection. We reserve the right to change colours at any time.
LIMITED LIFETIME WARRANTY

DISTINGUISH YOUR HOME’S GRACE AND CHARACTER

“Graceful character, powerful protection”

Mystique 42 shingles, uniquely designed with oversized tabs, feature dramatic 3-dimensional shadow bands to create a sharp, slate look, both eye-catching and strikingly elegant.

Choose from a superb palette of vintage colours designed to instantly enhance your home’s curb appeal.

Use BP Accu-Ridge or Yukon SB for Hip & Ridge

Due to limitations of the printing process, actual shingle colours and granule blends could be different from the photos.
It is recommended that you view a full size shingle before making a final colour selection. We reserve the right to change colours at any time.

**EARTH TONE SELECTION**

ANTIQUE WOOD  BROWN STONE  BEACHWOOD  TWILIGHT GREY  STONE WOOD  SLATE BLACK

**CLASS 3 IMPACT RESISTANCE**

Mystique 42 meets the FM 4473 Impact Resistance Class 3 Requirements. Mystique 42, built with a SeBS elastomeric compound provides proven FM performance.

On top of enhancing the impact resistance of the shingle, the modified asphalt improves the flexibility of the material, yielding better reaction to freeze-thaw cycles and improves the granules retention that protect the asphalt from UV degradation.

Mystique 42 shingles are backed by BP’s Limited Lifetime Warranty.

30-YEAR WARRANTY

THE GREAT OUTDOORS ARE NO MATCH FOR THE RUGGED YUKON SB

"Handsome style, durable character"

This heavyweight fiberglass, 3-tab shingle, produced with hurricane resistant Weather-Tite™ technology, is strong and durable for extraordinary protection in the toughest weather conditions.

The innovative shadow band creates an eye-catching, chiseled style that complements your choice of any one of the wide selection of colours.

This shingle may be as Hip & Ridge with Vangard 42 IR, Everest 42 and Monoir

BP ACCU-RIDGE

BP ACCU-RIDGE is a four-tab, prescored shingle, manufactured with modified asphalt that enables the easiest and most versatile way of finishing the roofing job.

- **No cutting** required to install the product
- Can be installed **up to 4 layers thick** for dimensional appeal
- Manufactured with a **SeBS modified asphalt** that makes it more flexible and resilient
- Fits perfectly on its own or over 9" hip and ridge filter vents
- Colours available precisely match selected Vangard 42 IR, Manoir and Mystique 42 shingles

BP ACCU-RIDGE can be installed as a single layer hip & ridge or can be stacked to enhance the roofing character. The following chart shows the actual linear coverage related to the number of plies applied:

- 1-ply application 12 linear m (39.4 linear ft.)
- 2-ply application 6 linear m (19.7 linear ft.)
- 3-ply application 4 linear m (13.1 linear ft.)
- 4-ply application 3 linear m (9.9 linear ft.)

BP’s COMPLETE WEATHER-TITE™ ROOFING SYSTEM

BP EAVE PROTECTORS
Considerable damage to the eaves can be caused by ice that builds up during the winter freeze/thaw cycles. Weathertex® or Gripgard waterproofing membrane will provide the protection you need.

BP UNDERLAYMENTS
High-performance Suredeck, BP lined asphalt felts, or BP Deckgard provide top notch secondary protection from water driven under the shingles by high winds.

BP STARTER STRIP SHINGLES
Cost-effective BP Starter Strip shingles or cut-off classic 3-tab shingles reduce installation time and waste by eliminating shingle scraps, and also provide excellent protection against wind and water infiltration.

BP SHINGLES
BP premium architectural shingles ensure maximum protection and feature our Weather-Tite™ technology with two bands of high-tack adhesive and come in a rich palette of designer colours. Our classic 3-tab shingles deliver proven performance, long-term durability, and a wide selection of colours.

BP HIP & RIDGE
Cut-off BP Accu-Ridge or classic 3-tab shingles cap your roof with peak protection while adding an attractive finished look.

The Weather-Tite™ Roofing System is engineered to maximize protection in rough weather. To ensure optimum effectiveness, a roof must be installed according to BP’s application instructions and respect the 5 KEY STEPS OF THE WEATHER-TITE ROOFING SYSTEM:
Install BP products, manufactured for quality and compatibility, to get the best return on your investment as well as long-lasting peace of mind.

**BP WEATHER-TITE™ ROOFING SYSTEM WARRANTY**

**Exclusive to BP!**

**DISCLAIMERS:**

1 For NON RESIDENTIAL ROOFING building, please refer to our website at bpcan.com.

† Amounts expressed in the region’s corresponding currency.

Please visit bpcan.com to review all legal documents and requirements for the Standard Warranty (Standard Limited Warranty) and Weather-Tite™ Roofing System Limited Warranty.
BUILT-IN QUALITY
COMES WITH EVERY BP SHINGLE ENSURING SOLID PERFORMANCE

BP superior quality assurance tests ensure the highest quality products.

BP is committed to supplying contractors and property owners with highly reliable products and roofing systems. At every step of the process, from raw materials to the finished product, stringent quality assurance tests are performed to ensure that our products are of the highest quality, inside and out.

1 FIBERGLASS MAT
The best inorganic fiberglass mat, dimensionally stable, strong and non-reactive to moisture

2 COATING ASPHALT
Liquid asphalt is oxidized to our exact specifications in our own state-of-the-art facilities.

3 MINERAL GRANULES
Once the fiberglass mat is coated with the oxidized asphalt, we apply a layer of mineral with granules precisely embedded to maximize retention, thus limiting long-term asphalt deterioration from exposure to UV light.

4 SELF-ADHESIVE STRIPS AND WEATHER-TITE™ TECHNOLOGY
The processed mat is cut and the shingles are assembled with high-performance, elastomer-modified asphalt adhesive. The assembly process is evaluated continuously to ensure precision. In this phase, ultra-performing self-adhesive strips—including Weather-Tite™ technology—are added to the shingles.

WE UNDERSTAND WHAT IS EXPECTED FROM PRODUCTS THAT PROVIDE "FIRST LINE OF DEFENSE" PROTECTION AGAINST NATURE’S ELEMENTS.

By systematically testing the materials and processes according to the HIGHEST ROOFING STANDARDS, we produce consistent, quality products for the construction of solid roofing systems that better stand the test of time.
As a leader in the building materials industry, Building Products of Canada (BP) has helped construct and renovate homes across Canada for over 100 years. BP has built on a foundation of integrity, trust, and shared goals that has nurtured relationships and partnerships, often for decades.

**LOWER ENVIRONMENTAL IMPACT**
Dedicated to reducing its environmental footprint, BP sources its materials locally, minimizing transportation-related green house gas emissions.

**QUALITY LOCAL MATERIALS**
Committed to consumers, BP shingles are produced with locally-sourced, high-grade materials locally in Quebec and Alberta and distributed across Canada.

**WARRANTIES DESIGNED SPECIFICALLY FOR OUR CUSTOMERS**
Since our products are made here, close to home, honouring our warranties is easier. Unlike our competitors, BP has a Canadian-based, in-house warranty department. We are focused on serving and supporting you, from one Canadian to another.

**LOCAL WORKFORCE**
Whether you are a homeowner, professional builder, or architect, when you choose BP you are supporting our homegrown workforce that produces materials specifically for our Canadian climate. BP offers you more than a guarantee of long-term quality and reliable protection—we promise you uncompromising peace of mind.
Due to limitations of the printing process, actual shingle colours and granule blends could be different from the photos. It is recommended that you view a full size shingle before making a final colour selection. We reserve the right to change colours at any time.
