SUPERIOR QUALITY SHINGLES

Constant attention when producing roofing shingles and accessories of the highest quality

Unique 42-inch shingles that reduce installation time.

Exclusive and patented Weather-Tite™ Technology:

- Greater resistance to wind blow-off
- Best warranty against wind blow-off up to 220 km/h (135 mph)*
- Better resistance against infiltration to wind-driven rain

*High-wind installation instructions must be followed for high-wind warranty to apply.

SUPERIOR QUALITY SERVICE

- A team of sales and technical representatives is available from coast to coast to support specification writers and building owners in their projects.
- BP is not only physically close to the market, we listen carefully to our partners' concerns and we provide solutions to meet their needs.
- This also means that we pay attention to our environment and govern ourselves as a responsible manufacturer in all our endeavours.
