

PATTERN DESIGN INSTRUCTIONS

ProFusio™ Shown: KIPPAWA

Figure 1

ProFusio™ is a tool unique to BP, created by our industry-leading CHROMA® Colour Lab. By blending various colours of **Signature** shingles, we created new and highly customized roofing colours that will express your unique sense of style. Put your own Signature on your home and roof.

These instructions refer exclusively to the sequence in which the colours should be installed on the roof. Please refer the BP's shingle installation guide for the proper application of shingles on a roof.

To create Kippawa, Metropolis, Arizona, and Oslo **ProFusio™** patterns, alternate colour 1 and colour 2 over successive rows as shown in Figure 1.

Use the same alternating pattern when applying matching Mont-Blanc colours for the hips and ridges.

See Figures 2 to 5 to identify which Signature colours are used to create the collection of **ProFusio™** designs.
